

## Evaluation Rubric

The University of St. Thomas (UST) Accountability System, including the Evaluation Framework and Evaluation Rubric will be used on an annual basis to evaluate schools, and whenever formal decisions are made about the effectiveness of a charter school in meeting its stated mission and objectives as well as the expectations set forth in its contract.

The Accountability System will be used by authorizing program staff and by the UST Charter School Authorizing Board to assess authorized schools' suitability for Contract Renewal, program expansion, and to evaluate any charter school seeking a change of authorizer.

Please note that the rubric below represents a template that will be modified to enable UST to appropriately evaluate each of its authorized schools.

**SY2024-2025****Rating:4**

**Comments:**

Global Academy is living its mission and vision. This was clearly observed during the fall site visit, the board observation, and the spring site visit. Board documents, communication with school leaders & board members, and quarterly reports also reflect the school's commitment towards its mission and vision. When visiting the school, the commitment of students, teachers, staff, and leadership is observable and reinforced in discussions with students, teachers, and leadership. Classroom observations showed students engaged in the lessons and expressed feeling challenged by their classes and supported when they encountered challenges. Global's theme for this academic year was "Reflect". Throughout the visit, it was noted that this theme was infused throughout Global. Some examples of this were the thoughtful approach to PD, the updating of their curriculum, and the careful tracking and use of data to support students. Global Academy continues to demonstrate a very proactive approach and a strong commitment to strengthening its school community. This dedication is evident in several key initiatives: the completion and implementation of CAREIALL, the successful looping of 5<sup>th</sup> and 6<sup>th</sup> grade, and the implementation of the Highly Effective Educator Program. This year also marked the launch of Global's Field Experience program with fellow Jamaican teachers. Looking ahead, the program's planned trip to Cairo, Egypt aligns seamlessly with the International Baccalaureate (IB) philosophy, offering educators deeper insight into the cultural backgrounds of their students and families. Global Academy continues to provide a peaceful, caring and committed community and is truly dedicated to offering a high-quality education that prepares them for success and leadership in a challenging high school program while also developing them into global citizens.

**SY2023-2024****Rating: 4**

**Comments:** Through site visits and focus group interviews as well as the strategic plan and board documentation, it is clear that all decisions made are mission-driven. All stakeholders at the school are well aware of the mission and vision of the school and this is easily articulated by all. There is a definite sense of pride in the school that can be felt throughout the building. This was also evident in a well-deserved article entitled "Beating the Odds" in the Star Tribune.

**Comments:**

Global Academy provides a safe environment for its diverse student population. The external doors are locked, and there is a buzzer/intercom system to admit visitors to the school. During the fall site visits, students reported feeling safe at school both physically and emotionally. They also shared that the school is very inclusive. The hallways and classrooms have posters, books, and curriculum that represent Global Academy's diverse culture. The middle school classes are located in a separate wing from the elementary classes. This division helps to support their

specific developmental needs. The rooms have uniformity in furnishing, and all needed resources are provided for students and teachers. The building is accessible to all students.

**3.18 Does the school have systems and structures in place, including an effective multi-tiered system of support (MTSS), to effectively identify and support students needing academic and/or behavioral supports in a timely fashion? This includes:**

- **A clear process to identify students needing support, understood and implemented consistently.**
- **A robust system of tiered supports.**
- **Timely execution of these supports.**
- **Use of data to evaluate the effectiveness of supports and the system.**
- **Effective communication between stakeholders (teachers, school staff, families, and students)**

1 = Does not meet standard      The school does not have adequate systems to identify students needing supports. When students are identified the systems in place move slowly, taking weeks or months to execute the eventual support. Communication within systems is poor and internal/external stakeholders (teachers, school staff, parents, students) do not always receive timely or adequate communication.

2 = Approaching standard      The school has systems to identify students needing supports, but they may not always work as designed. When students are identified the systems in place move at a moderate pace, taking several weeks to a month to execute the eventual support. Communication within systems is patchy and internal/external stakeholders (teachers, school staff, parents, students) receive communication, but it may not always be timely or adequate.

3 = Meets standard      The school has systems to identify students needing supports, which work reliably and are understood and used regularly by individuals throughout the system (teachers, paraprofessionals, administrators, counselors, parents, etc.). When students are identified the systems in place move efficiently, taking days or weeks to execute the needed support. Communication within

<p>4 = Exceeds standard</p>	<p>The school has systems with built in redundancies (multiple opportunities for reporting) to identify students needing support. <p><b>SY2024-2025</b>  <b>Rating: 3</b></p> <p><b>Comments:</b>            Global Academy has a multi-tiered system of support. At grade-level meetings led by the assistant directors, students who demonstrate inadequate academic progress are identified. These students receive targeted interventions. There are academic intervention groups for scholastic concerns and individualized behavior interventions for social/behavior concerns. The two assistant directors monitor academic progress and provide support to staff to use differentiation within lessons. The director oversees the academic interventionists who use specialized curriculum materials designed specifically for students who demonstrate challenges but do not meet the criteria for special education services.</p>
