

NATIONAL SCIENCE FOUNDATION'S ROBERT NOYCE TEACHER SCHOLARSHIP PROGRAM

TUITION SUPPORT FOR STUDENTS PURSUING A STEM DEGREE AND TEACHING LICENSE

The National Science Foundation's Robert Noyce Teacher Scholarship Program provides funding for undergraduate students interested in pursuing a teaching license in STEM. This funding supports a partnership between the School of Education and College of Arts and Sciences at the University of St. Thomas and the South St. Paul School District to increase the number of science, technology, engineering and mathematics (STEM) teachers who work in the community.

Recipients of this award must serve as a full-time STEM teacher in a high-need school for a total of two years for each full year in which the scholarship was received, within eight years after completing their degree program.

Scholarship Overview:

- Up to \$20,000 per year in scholarship funds for tuition and fees; exact amount based on financial need. Renewable for 1-3 years.
- Supports undergraduate degree and teaching license in STEM education.
- Additionally, up to \$8,000 during junior year for a study-abroad experience.

To Be Eligible:

- Desire to become a licensed teacher in the fields of science, technology, engineering and mathematics (STEM),
- Demonstrated financial need,
- Undergraduate cumulative GPA of 2.75 in STEM courses to date and at least an overall GPA of 3.0,
- Admittance into the St. Thomas undergraduate bachelor program as well as the School of Education with intent to major in STEM education.
- Attained junior or senior status school year 2026-27.
